Begin Planning for Your Future Today

At Legend College Preparatory (LCP), we believe each of our students has a bright future ahead – one that includes an exceptional college experience and a smooth transition into a fulfilling career. Research shows early matching of interests, skills and personality traits to a compatible choice of college, major and career increases workplace success and satisfaction. Toward this end, LCP is offering a College and Career Readiness Program specifically designed to help middle- and high-school students identify their goals and develop sound plans to achieve them. We recognize that a student's performance and involvement during grades six through twelve significantly impacts his or her options going forward, and our academic advisors are dedicated to ensuring that LCP students are well-positioned to make the most of these formative years.

Course Title: College and Career Readiness: Begin Planning for Your Future Today

Who can take this course?

Anyone and everyone! We recommend that students start planning for their future pursuits as soon as possible. It's never too early and don't wait until it's too late.

Why should I take this course?

This course sets out to help students deepen self-understanding in order to provide them with a sense of direction in preparation for college and beyond. How do I apply to universities? What school fits me best? What major do I choose and how does it lead to a professional career? Legend partners with each student in strategically creating a series of college and career-focused action items. Beyond that, we help students take ownership of their responsibilities, develop leadership skills, and practice purposeful decision-making.

College goal and plan presentation

At the end of the course, families and friends will gather to listen in to the student's presentation of his/her college vision. We believe that the student's commitment to the vision is important and is best done with the help of a team of family and friends.

How long is the course and what is the tuition?

This is a one-semester 5-credit course. There are a total of 7 two-hour classes. We offer this course for free to current students and spring intensive enrollees.

2017 Spring Schedule

Session	Grade	Day & Time	2017 Meeting Dates
